DF Sports Arena - Frontend Documentation

Overview

DF Sports Arena is a static website for a football arena located in Adjumani, Uganda. The frontend is built with HTML5, CSS3, and vanilla JavaScript, using Bootstrap 5 as the UI framework.

Project Structure

```
D:\DF SPORTS ARENA\
├── index.html          # Homepage
├── matches.html         # Upcoming matches page
├── flyers.html          # Event flyers page
├── gallery.html         # Photo gallery page
├── booking.html         # Pitch booking page
├── contact.html         # Contact information page
├── css/
│   └── style.css        # Custom styles (886 lines)
├── js/
│   └── script.js        # JavaScript functionality (296 lines)
├── images/              # Local images directory
└── README.md
```

Pages

1. Homepage (index.html)

- **Hero Section**: Full-screen landing with animated background, tagline, and CTA buttons
- **Upcoming Matches**: Displays 4 upcoming matches with booking links
- **Book Pitch CTA**: Prominent booking section
- **Google Maps**: Embedded location map for Adjumani, Uganda
- **Footer**: Navigation links and social media icons

2. Matches Page (matches.html)

- Page header with breadcrumb-style title
- Dynamic match cards rendered from `matchesData`
- Booking CTA section
- Footer with navigation

3. Flyers Page (flyers.html)

- Grid layout of event flyers
- Dynamic rendering from `flyersData`
- Click-to-open modal for full-size image preview
- Contact CTA section

4. Gallery Page (gallery.html)

- Responsive photo grid (3 columns desktop, 4 columns tablet, 6 columns mobile)
- Hover overlay effect with zoom icon
- Click-to-open modal for full-size image preview
- Social media CTA section

5. Booking Page (booking.html)

- WhatsApp booking integration
- Booking checklist (what to include in request)
- Contact cards (Phone, Email, Location)
- Pricing tiers display (Hourly, Match, Tournament)
- Multiple CTAs throughout

6. Contact Page (contact.html)

- 6 contact cards: Location, Phone, WhatsApp, Email, Hours, Booking
- Google Maps embed
- Social media links
- Booking CTA

Components

Navigation Bar

- Fixed top position
- Responsive hamburger menu for mobile
- Active state highlighting for current page
- Hover underline animation (gold accent)

Match Card

- Tournament header (green gradient)
- "Upcoming Match" badge
- Team names with VS badge
- Date/time display
- WhatsApp booking button

Flyer Card

- Image with overflow hidden for zoom effect
- Card body with title and metadata
- Click to open modal

Gallery Item

- Fixed aspect ratio images
- Hover overlay with search icon
- Click to open modal

Contact Card

- Circular icon header
- Centered content
- Hover lift effect

Footer

- Logo and tagline
- Navigation links
- Social media icons (Facebook, Instagram, WhatsApp)
- Copyright notice

Back to Top Button

- Fixed bottom-right position
- Appears after 300px scroll
- Smooth scroll animation

Image Modal

- Bootstrap 5 modal
- Full-size image display
- Dynamic title from clicked element

JavaScript Functions

Data Arrays

```
flyersData    // Array of 6 event flyer objects
matchesData   // Array of 4 upcoming match objects
galleryImages // Array of 8 gallery image objects
```

Core Functions

Function	Description
`loadFlyers()`	Renders flyer cards to `#flyers-container`
`loadMatches()`	Renders match cards to `#matches-container`
`loadGallery()`	Renders gallery items to `#gallery-container`
`openImageModal(src, alt)`	Opens Bootstrap modal with image
`scrollToTop()`	Smooth scrolls to page top
`initNavigation()`	Sets active nav link based on current page
`initBackToTop()`	Controls back-to-top button visibility

Function	Description
`initScrollAnimations()`	Fade-in animation on scroll

Initialization

All functions are called on `DOMContentLoaded` event.

CSS Architecture

Color Variables (CSS Custom Properties)

```
--primary-green: #006400    /* Main brand color */
--dark-green: #004d00       /* Darker variant */
--light-green: #228b22     /* Lighter variant */
--accent-gold: #ffd700     /* Highlight/CTA color */
--black: #000000
--white: #ffffff
--gray: #6c757d
--light-gray: #f8f9fa
```

Key Styles

- **Buttons**: Gradient backgrounds, hover lift effects, rounded corners
- **Cards**: Shadow effects, border-radius, hover transforms
- **Hero**: Fixed background attachment, gradient overlay, animated content
- **Animations**: fadeInUp, pulse, bounce, moveBackground
- **Responsive**: Mobile-first breakpoints at 576px and 768px

WhatsApp Integration

- Phone: `+256 776 057 501`
- URL Format: `https://wa.me/256776057501?text=<encoded_message>`
- Pre-filled messages for different contexts (booking, tickets, inquiries)

External Dependencies

Library	Version	Purpose
Bootstrap	5.3.0	Grid, components, modal
Font Awesome	6.4.0	Icons (football, calendar, WhatsApp, etc.)
Google Fonts	N/A	System fonts (Segoe UI)

External Resources

Service	Purpose

Service	Purpose
Unsplash	Stock images for heroes, flyers, gallery
Google Maps	Location embed
WhatsApp API	Direct messaging

Responsive Breakpoints

Breakpoint	Column Layout
Desktop (lg)	4 columns (flyers), 6 columns (matches), 3 columns (gallery)
Tablet (md)	6 columns (flyers), 4 columns (gallery)
Mobile	1 column, stacked layouts, hamburger menu

Features

1. **Dynamic Content Loading**: All cards render from JavaScript data arrays
2. **Image Modal Preview**: Click any flyer or gallery image to view full-size
3. **Scroll Animations**: Elements fade in as they enter viewport
4. **Active Navigation**: Current page highlighted in nav
5. **Back to Top**: Appears on scroll, smooth scroll back
6. **WhatsApp Booking**: One-click booking via WhatsApp with pre-filled messages
7. **Responsive Design**: Mobile-first approach with Bootstrap grid
8. **SEO Meta Tags**: Each page has unique title and description

Browser Support

- Modern browsers (Chrome, Firefox, Safari, Edge)
- Bootstrap 5 does not support IE11

Performance Notes

- External CDN for all libraries (Bootstrap, Font Awesome)
- Lazy loading on Google Maps iframe
- CSS animations use transform/opacity for GPU acceleration
- Minimal JavaScript footprint (vanilla JS, no frameworks)
